Portfolio - ayushkoli.vercel.app | GitHub - github.com/ayushkoli | Pune, India

SUMMARY

Full-stack developer with hands-on experience building scalable web applications and APIs, skilled in frontend, backend, and database development, with a strong focus on writing clean and maintainable code.

EXPERIENCE

Revvknew Media - Backend Developer Intern 07/2026 - Present | Pune, India

- Building backend APIs using NestJS, Prisma, and SQLite, following modular service-based architecture.
- Collaborated in an Agile environment, following SDLC practices across sprint planning and code reviews.

Abhinav IT Solutions Pvt Ltd - Web Developer Intern 01/2025 - 04/2025 | Pune, India

- Rebuilt and deployed SMEF's Bricks Group of Institutes website from scratch, redesigning the UI and shipping a fully responsive site with course catalog and contact integration in under 7 days.
- Collaborated on True Voter, a civic tech app built in partnership with the Election Commission of India.

EDUCATION

Bachelor of Engineering in Computer Science 2022 - 2026 | Pune, India

RMD Sinhgad Technical Institute Campus | Grade: 8.15 CGPA

PROJECTS

WhiteSpace - Social Media Blog Platform - writespace-black.vercel.app 2026

- Built a scalable Twitter-like social media platform backend using Node.js, Express.js, and MongoDB, supporting posts, likes, saves, comments, and user interactions.
- Implemented secure JWT authentication and bcrypt password hashing, ensuring protected user sessions and secure data handling across the platform.

Tech Stack: Node.js, Express.js, React.js, JWT, bcrypt, Cloudinary, MongoDB Atlas

Gramin Arogya - AI-Powered Rural Healthcare Platform - [GitHub](#) 2025

- Developed a telemedicine platform connecting rural patients with urban doctors, enabling online consultations, digital prescriptions, and government health scheme discovery for underserved communities.
- Integrated Puter.js API for AI-driven symptom analysis and WebSocket for real-time doctor-patient communication, optimized for low-bandwidth rural networks.
- Designed Multilingual UI supporting regional languages, making healthcare accessible to non-English-speaking users across rural India.

Tech Stack: Node.js, MongoDB, WebSocket, JavaScript, Puter.js, HTML/CSS

Video Calling App - Real-Time Communication Platform - videocall-lza3.onrender.com 2025

- Developed a secure, real-time video calling application using WebRTC, enabling low-latency peer-to-peer communication with dynamic room creation and encrypted media streams.
- Optimized connection setup and signaling to reduce call initiation time by 20% and enhance stability under varying network conditions.

Tech Stack: WebRTC, JavaScript, Node.js, Express.js, HTML/CSS, Socket.IO, STUN/TURN

SKILLS

Languages: Java, C++, JavaScript (ES6+), TypeScript

Frontend: React.js, HTML, CSS, Bootstrap, Tailwind CSS, Vite, Figma

Backend & Database: Node.js, Express.js, NestJS, MongoDB, MySQL, SQLite, Prisma

Tools & Platforms: Git, GitHub, GitLab, Postman, Notion, Figma, Excel, Cloudinary, Cursor

ACHIEVEMENTS AND CERTIFICATIONS

InnovateYou Techathon 2.0 - National Level Hackathon Winner 2025

Winner among 300+ teams in the Healthcare domain at AISSMS IoT College.

YUKTI Startup Innovation Challenge - Participant 2025

Participated in the YUKTI Startup Innovation Challenge, presenting an AI-powered healthcare startup idea.
