Portfolio - ayushkoli.vercel.app | GitHub - github.com/ayushkoli | Pune, India

SUMMARY

Computer Science graduate and full-stack developer with hands-on experience building scalable web applications and APIs. Skilled in frontend and backend development, database management, and delivering clean, efficient, and maintainable software solutions.

EXPERIENCE

Revvknew Media - Backend Developer Intern

July 2026 - Present | Kharadi, Pune, India

- Building backend APIs using NestJS, Prisma, and SQLite, following modular service-based architecture.

Abhinav IT Solutions Pvt Ltd - Web Developer Intern

01/2025 - 04/2025 | Pune, India

- Rebuilt and deployed SMEF's Bricks Group of Institutes website from scratch, redesigning the UI and shipping a fully responsive site with course catalog and contact integration in under 7 days.
- Integrated WhatsApp chatbot services for automated customer query responses and collaborated on True Voter, a civic tech app built in partnership with the Election Commission of India.

EDUCATION

Bachelor of Engineering in Computer Science, Savitribai Phule Pune University

2022 - 2026 | Pune, India

Grade: 8.15 SGPA

PROJECTS

WhiteSpace - Social Media Blog Platform - writespace-black.vercel.app

2025

- Built a scalable Twitter-like social media platform backend using Node.js, Express.js, and MongoDB, supporting posts, likes, saves, comments, and user interactions.
- Implemented secure JWT authentication and bcrypt password hashing, ensuring protected user sessions and secure data handling across the platform.

Tech Stack: Node.js, Express.js, React.js, JWT, bcrypt, Cloudinary, MongoDB Atlas

Gramin Arogya - AI-Powered Rural Healthcare Platform - GitHub

2025

- Developed a telemedicine platform connecting rural patients with urban doctors, enabling online consultations, digital prescriptions, and government health scheme discovery for underserved communities.
- Integrated Puter.js API for AI-driven symptom analysis and WebSocket for real-time doctor-patient communication, optimized for low-bandwidth rural networks.
- Designed a multilingual UI supporting regional languages, making healthcare accessible to non-English-speaking users across rural India.

Tech Stack: Node.js, MongoDB, WebSocket, JavaScript, Puter.js, HTML/CSS

Video Calling App - Real-Time Communication Platform - videocall-lza3.onrender.com

2025

- Developed a secure, real-time video calling application using WebRTC, enabling low-latency peer-to-peer communication with dynamic room creation and encrypted media streams.
- Optimized connection setup and signaling to reduce call initiation time by 20% and enhance stability under varying network conditions.

Tech Stack: WebRTC, JavaScript, Node.js, Express.js, HTML/CSS, Socket.IO, STUN/TURN

SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, Python

Frontend: React.js, Next.js, HTML, CSS, Bootstrap, Tailwind CSS, Vite, Figma

Backend & Database: Node.js, Express.js, NestJS, MongoDB, MySQL, PostgreSQL, SQLite, Prisma

Tools & Platforms: Git, GitHub, Postman, REST APIs, WebSocket, WebRTC, Socket.IO, JWT, bcrypt, OpenAI API, Puter.js, STUN/TURN, Cursor, Vercel, Render

ACHIEVEMENTS

InnovateYou Techathon 2.0 - National Level hackathon WINNER

2025

Winner of a 24-hour national-level hackathon at AISSMS IoT College in the Healthcare domain, recognized for developing an AI-powered health solution among 300+ teams.

YUKTI Startup Innovation Challenge - Participant

2025

Participated in the YUKTI Startup Innovation Challenge, presenting an AI-powered healthcare startup idea
