PROFESSIONAL EXPERIENCE

Abhinav IT Solutions Pvt Ltd, Web Developer Intern (In-office | Stipend-based) 01/2025 – 04/2025 | Pune, India

- Built and deployed the official website for Bricks Institute with responsive layouts, course catalog, and contact integration using HTML, CSS, and JavaScript.
- Integrated WhatsApp chatbot services for automated customer query responses, collaborated on True Voter - a civic tech app built in partnership with the Election Commission of India.
- Followed Agile practices, including sprint planning, daily stand-ups, and code reviews, to streamline development and maintain consistent progress

Tech Stack: PHP, JavaScript, HTML/CSS, Git, MySQL, WordPress, Nodejs, Twilio

EDUCATION

Bachelor in Computer Science, Savitribai Phule Pune University Pune, India

2022 - 2026

Grade: 9.30 SGPA

PROJECTS

Gramin Arogya - AI-Powered Rural Healthcare Platform, *Web Developer* 2025

- Developed a telemedicine platform connecting rural patients with urban doctors, enabling online consultations, digital prescriptions, and government health scheme discovery for underserved communities.
- Integrated Puter.js API for AI-driven symptom analysis and WebSocket for real-time doctor-patient communication, optimized for low-bandwidth rural networks.
- Designed a multilingual UI supporting regional languages, making healthcare accessible to non-English-speaking users across rural India.

Tech Stack: Node.js, MongoDB, WebSocket, JavaScript, Puter.js, HTML/CSS

WhiteSpace - Social Media Blog Platform, *Web Developer* 2026

- Built a scalable Twitter-like social media platform backend using Node.js, Express.js, and MongoDB, supporting features like posts, likes, saves, comments, and user interactions.
- Designed modular RESTful APIs and optimized backend architecture for maintainability and efficient database operations.
- Implemented secure JWT authentication and bcrypt password hashing, ensuring protected user sessions and secure data handling across the platform.

Tech Stack: JavaScript, HTML, CSS, REST APIs, Git

Video Calling App – Real-Time Communication Platform, *Web Developer* 2025

- Developed a secure, real-time video calling application using WebRTC, enabling low-latency peer-to-peer communication for smooth user interaction.
- Implemented dynamic room creation, encrypted media streams, and real-time connection management for reliable call experiences.
- Optimized connection setup and signaling to reduce call initiation time by 20% and enhance overall stability under varying network conditions

Tech Stack: WebRTC, JavaScript, Node.js, Express.js, HTML/CSS, Socket.IO, STUN/TURN

SKILLS

Frontend: HTML, CSS, React.js, React Hooks, Context API

Backend & Database: JavaScript (ES6+), Java, Node.js, Express.js, REST APIs, JWT, bcrypt, MongoDB (Mongoose), MySQL

Real-Time & APIs: WebRTC, OpenAI API, Puter.js, WebSocket, WhatsApp Business API (Twilio/WATI)

Tools & Concepts: Git, GitHub, Postman, VS Code, DSA, OOP, Agile/Scrum

ACHIEVEMENTS

InnovateYou Techathon 2.0 - National Level hackathon WINNER

2025

Winner of a 24-hour national-level hackathon at AISSMS IoT College in the Healthcare domain, recognized for developing an AI-powered health solution.
