EXPERIENCE

Abhinav IT Solutions Pvt Ltd | Web Developer Intern

01/2025 - 04/2025 | Pune, India

- Rebuilt and deployed SMEF's Bricks Group of Institutes website from scratch, scraping existing content, redesigning the UI, and shipping a fully responsive site with course catalog and contact integration in under 7 days.
- Integrated WhatsApp chatbot services for automated customer query responses, collaborated on True Voter - a civic tech app built in partnership with the Election Commission of India.
- Attended client meetings, coordinated with senior developers and UI/UX designers, and maintained daily check-ins with the reporting manager throughout the internship following Agile practices.

Tech Stack: JavaScript, HTML/CSS, Git, MySQL, Node.js, Express.js, Twilio

EDUCATION

Bachelor of Engineering in Computer Science, Savitribai Phule Pune University, Pune, India

2022 - 2026

Grade: 9.30 SGPA

PROJECTS

WhiteSpace - Social Media Blog Platform | Live Demo

2025

- Built a scalable Twitter-like social media platform backend using Node.js, Express.js, and MongoDB, supporting features like posts, likes, saves, comments, and user interactions.
- Designed modular RESTful APIs and optimized backend architecture for maintainability and efficient database operations.
- Implemented secure JWT authentication and bcrypt password hashing, ensuring protected user sessions and secure data handling across the platform.

Tech Stack: Node.js, Express.js, React.js, JWT, bcrypt, Cloudinary

Gramin Arogya - AI-Powered Rural Healthcare Platform | GitHub

2025

- Developed a telemedicine platform connecting rural patients with urban doctors, enabling online consultations, digital prescriptions, and government health scheme discovery for underserved communities.
- Integrated Puter.js API for AI-driven symptom analysis and WebSocket for real-time doctor-patient communication, optimized for low-bandwidth rural networks.
- Designed a multilingual UI supporting regional languages, making healthcare accessible to non-English-speaking users across rural India.

Tech Stack: Node.js, MongoDB, WebSocket, JavaScript, Puter.js, HTML/CSS

Video Calling App - Real-Time Communication Platform | Live Demo

2025

- Developed a secure, real-time video calling application using WebRTC, enabling low-latency peer-to-peer communication for smooth user interaction.
- Implemented dynamic room creation, encrypted media streams, and real-time connection management for reliable call experiences.
- Optimized connection setup and signaling to reduce call initiation time by 20% and enhance overall stability under varying network conditions.

Tech Stack: WebRTC, JavaScript, Node.js, Express.js, HTML/CSS, Socket.IO, STUN/TURN

SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), React.js, Bootstrap

Backend & Database: Java, Node.js, Express.js, REST APIs, JWT, bcrypt, MongoDB, MySQL, PostgreSQL

Tools & Technologies: Git, GitHub, Postman, WebRTC, WebSocket, Cursor, OpenAI API, Puter.js

Concepts: DSA, OOP, Agile, DBMS, OS, CN, MVC Architecture, Authentication & Authorization

ACHIEVEMENTS

InnovateYou Techathon 2.0 - National Level hackathon WINNER

2025

Winner of a 24-hour national-level hackathon at AISSMS IoT College in the Healthcare domain, recognized for developing an AI-powered health solution among 300+ teams.
